

G 'n' K

**Can I tell you something special - a feeling
Know-oh I haven't known you long
Met you in the midnight hours – but I know it
I am going to spend the rest of my time here
Looking in your blue eyes – I know it's crazy
Angel sent from heaven**

**I can tell you see it's special - you get it
I know you haven't known me too long
Just 10 short hours, at the jazz club – but now it's love
And I hope you don't mind if I tell you
We are going to start a new life – Just mark my words now
Angel sent from heaven**

**Step inside
Light the spark, and there goes my heart
You and I
We will never, e-ever part**

**Don't hold back and I will love you – for-ev-er
And yet I barely know you at all
When I saw you, Got a notion - set in motion
And I am so glad I crossed that room
Come with me, let's spend a lifetime – walking hand in hand
Angel sent from heaven**
